Open-Ended Feedback: Please provide any additional comments or suggestions for improving the TB detection tool or its integration with the OpenMRS system.

We will do sputum examination for detection of Bacteria. For TB detection now a days we are using CBNAAT or GENE EXPERT

This system will be useful in hospitals in rural areas where there are less doctors available

Thank you for taking the time to participate in this evaluation. Your valuable feedback will help us enhance the TB detection tool and contribute to improved healthcare outcomes.
